When a woman falls overboard she sometimes drowns when there is a life buoy just within a few strokes of her—all because she doesn't happen to see it. Sick people often it. Sick people often
perish in the same way.
Help is within reach,
but they don't
know just where
it is. They become discouraged

and disgusted

with taking med-icines and give up in despair. Mrs. Mary J. Stewart, of Saratoga, Santa Clara Co., Cal., in a letter to Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, Buf-Invalids' Hotel and Surgical Institute, Bulfalo, N. Y., says: "I suffered for fourteen years with female weakness, nervousness and general debility, trying everything I could find to help me—all to no avail. Although: I was thoroughly discouraged and disgusted with taking medicine when I heard of Dr. Pierce's medicines, I thought I would try once more to find relief. I took the 'Golden Medical Discovery' and 'Favorite Prescription,' and too great praise cannot be

'Golden Medical Discovery' and 'Favorite Prescription,' and too great praise cannot be given for the rapid relief they gave me. I am now free from the former troubles, and may God bless Dr. Pierce in all his undertakings to cure suffering humanity."

Thousands who had reached this forlorn and hopeless condition of body and mind have found new hope and rescue in the use of these maryelous remedies.

have found new hope and rescue in the use of these marvelous remedies.

Dr. Pierce's great thousand-page book, "The People's Common Sense Medical Adviser" is sent free in paper covers for 21 one-cent stamps to pay cost of mailing only, or, cloth-bound for 31 stamps. Address, Dr. R. V. Pierce, Buffalo, N. Y.

Rev. J. K. Thompson, of East Calais, Washington Co., Vt., writes concerning this great work. "I am charmed with the style and general subject matter of the entire work. I consider it avaluable addition tomy carefully selected library. The purpose to set men right physically is a noble one. I am also pleased with the refined and at the same time fearless way in which you handle those delicate subjects pertaining to biology, thus making the work admirably fitted for the young."
